## PRESS RELEASE

**Cybersecurity and technological innovations in the area of business security are the services that NaviRisk intends to develop - a recognised entity operating within the international Group so far as React Risk Advisory Sp. z o.o. The company is also expanding the catalogue of specialist offers as part of its current core business, i.e. corporate investigations, due diligence, and risk management.**

NaviRisk is one of the leaders of the domestic and Central European market of intelligence and risk management services. The company operates in Central and Eastern Europe, the Nordic, and the Baltic countries, as well as in the Middle East. The company president is Bartosz Pastuszka, an expert in the field of risk management, owner of, among others, the Eastshield fund and such brands as CyberPrevent Solutions, Brand Authentication Solutions, Crisis Legal Solutions agency. He is also a managing partner of SecUA, a company operating in Ukraine, specialising in broadly understood security and brand protection.

The NaviRisk Group partner network consists of professional companies and consultants worldwide who are involved in the search for solutions for all the tasks of NaviRisk's global customers. The Group offers its Partners cooperation on many levels - depending on the needs and aspirations in the scope of including new products, services, opportunities, and group synergy in the local portfolio.

'As a global network of consulting companies in business risk, intelligence, cybersecurity and security, we use the potential of specialised local companies operating in the field of security. It is our response to international companies' demand for local access to world-class services and consulting, regardless of time zone and location. The consulting network consists of organisations and entities that maintain the highest professional standards in their consulting and operational services and adhere to the code of ethics ' Bartosz Pastuszka, NaviRisk CEO, emphasises.

The core of the NaviRisk team is experts experienced in international projects, involved in building the business security industry in Poland, Central and Eastern Europe and Scandinavia. The NaviRisk team in Warsaw manages a portfolio of integrated services - from specialised business analyses, intelligence and due diligence, corporate investigations to a detailed risk management offer and a full range of cybersecurity activities. The company seat shall remain in Warsaw.

'We develop new forms of cooperation with our clients in response to the problems they report. The Brand Protection department has a strong technological background of an innovative Brand Authentication Solutions tool. In response to cybercrime threats, we also invest in cyber risk services professionalisation' says Bartosz Pastuszka.

**Bartosz Pastuszka, NaviRisk President**

*An expert in the field of economic intelligence, security, and business ethics. One of the founders of the Polish business security industry. In 2005–2016 he developed his own company, IBBC Group, which deals with risk assessment and crisis situations' management in business. The brand, the first of its kind in Poland, quickly became a leader in the industry in the Central and Eastern European market. Within the IBBC Group, he cooperated with the FBI. His company caught the attention of the legendary Pinkerton agency who bought it, and Bartosz Pastuszka took over the position of its director for this part of Europe. Between 2011 and 2016, he organised Central-Eastern Europe Fraud and Risk Conference - the largest symposium on security in Central and Eastern Europe. Since 2015, he has been a guest lecturer at the Faculty of Management of the University of Warsaw, presenting topics related to entrepreneurship and business ethics. Since 2018, he has been developing business security companies, including: React Risk Advisory, Crisis Legal Solutions, or Eastshield. He owns specialised services dedicated to the cybersecurity industry - CyberPrevent Solutions - and an innovative technological solution - Brand Authentication Solutions. He is a committed member of many international industry organisations, such as the Association of Certified Fraud Examiners (ACFE), the American Society for Industrial Security International (ASIS) and the Polish Association of Licensed Investigators. Founder and editor of Business Security Magazine.*
